EXPERIENCE

Designer, Bungee Space

Nov 2020 – Present, Part-time

- Designed visual assets across print and digital platforms, including ads, social media, e-commerce, email campaigns, and event communications.
- Developed promotional graphics, typography-driven layouts, and brand materials for cultural programming, retail campaigns, and public events.
- Created visual content for exhibitions, artist talks, and community initiatives across digital and physical touchpoints.
- Supported exhibition production and event logistics, connecting visual design with audience experience in a cultural retail space.

Art Director & UI/UX Designer, say!t

Jul 2025 – Present, Part-time

- Defined visual direction and user experience for a teen mental health support app scheduled for public launch in 2026.
- Developed a cohesive design system across interface design, visual language, and interaction patterns.
- Collaborated with product and design teams to translate emotional support, peer connection, and safety-focused features into accessible mobile experiences.
- Created high-fidelity screens, user flows, and visual assets to support product development and stakeholder communication.

UI/UX Designer, Quesay

Nov 2020 – Jun 2023, Part-time

- Designed mobile experiences for a social media app serving high school and college students, launched on the Apple App Store in July 2022.
- Collaborated with the CTO, Product Lead, and engineers to translate product requirements into user flows, interface designs, and new features.
- Created high-fidelity screens, onboarding flows, and walkthrough content to improve feature clarity and first-time user experience.

Design Intern, Beeplus Co-working Space

Jun – Aug 2018, Internship

- Collaborated with the branding team to develop print and digital assets, including event posters, flyers, social media campaigns, and promotional materials.
- Supported visual communication across branded campaigns, event promotions, and internal design needs.

Design Intern, The Dragon-Year Gallery

Jun – Aug 2017, Internship

- Created social media graphics and digital content for gallery communications across major platforms.
- Designed web UI/UX for a gallery film forum and edited documentary video content for the performance art project *Social Phobia*.
